

GAF 162

Glazing Bead End Milling Machine

uPVC

CHARACTERISTIC FEATURES

- Profil clamping for 2 glazing beads with exchangeable support
- Manual feed
- Bench model with milling motor
- With quick change system for milling cutters
- With attachment for an extraction unit
- Pneumatic profile clamping
- Stop for adjusting the milling depth
- Pressure gauge with filter

OPTIONAL EXTRAS

- Machine stand
- Turret stop for 8 different end milling depth

TECHNICAL DATA

- Power (kW): 2,2
- Voltage (V): 400
- Air pressure (bar): 6-8
- Air consumption (l/working cycle): approx. 0,2
- Profile width (mm): max. 50
- Profile height (mm): max. 50
- Bar length (mm): min. 200
- Diameter of milling cutter (mm): max. 180
- End milling depth (mm): max. 40
- Machine dimensions L x D x H (mm) with stand: ca. 780 x 760 x 1.100
- Weight with stand (kg): approx. 220
