Glazing bead saw GLS 217
For the cutting of uPVC glazing beads to 45°

Characteristic features:
- Easy handling by hand lever
- Pneumatic profile clamping
- Inexpensive purchase price
- Simultaneous undercutting of the glazing bead edge
- Simultaneous notching and cutting of the glazing bead in one clamping

Technical data:
- Wattage (kW): 2 x 0,3
- Voltage (V): 230
- Revolutions (min⁻¹): 7.000
- Air pressure (bar): 6 - 8
- Profile height (mm): max. 32,5
- Profile width (mm): max. 42
- Cut length (mm):
  - min. 100 without length stop
  - min. 260 with length stop
- Cutting angle: 45°
- Saw blade - Ø (mm): 138
- Weight (kg): approx. 45
- Machine dimensions L x D x H (mm):
  - 600 x 500 x 1.300 with stand, without stopping and supporting tube
- Workable material: uPVC glazing beads
