

Drain Slot Milling Machine

for milling simultaneously of 2 staggered slots

FWS 381

Technical data:

- Power (kW): 3 x 0.5
- Voltage (V): 230
- Air pressure (bar): 7
- Speed of the milling motor (min -1): 24.000
- Workable profile width (mm): min. 40, max. 120
- Workable profile height (mm): min. 50, max. 80
- Machine dimensions L x D x H (mm):
600 x 900 x 1.750
- Weight (kg): approx. 150
- Workable material: uPVC hollow bar profiles

Characteristic features:

- The travel of the lower milling unit guarantees the staggered slots of the inner bead drainage
- Adjustment of the units to the milling positions by hand wheels and adjusting aids
- Equipment with 3 milling units
- Simultaneous milling of 2 staggered, lengthwise adjustable drain slots in 2 (3) planes
- Pressure gauge with filter

Optional extra:

- High frequency equipment
